Multiple Energy Approach

The SOQI Bed Set incorporates natural therapies and high quality products using a unique “multiple energy approach.” By using HTE’s products in combination you are balancing your body’s motion, thermal, electric and nutritional energies. This is inspired by energy healing and back to nature concepts. The multiple energy approach is your gateway to good health.

Motion Energy

Represented by the award winning Chi Machine[®], which is associated with international patent designs. It allows your body to be harmonized in the figure “8” motion. You will experience instantaneous relaxation due to the return of your spinal curve. The Chi also improves the flow of circulation, and oxygen absorption stimulating your energy levels throughout the day.

Thermal Energy

Represented by the HotHouse[®], a patent technology that allows Far Infrared Rays to penetrate deep into your body enhancing your local circulation, and releasing toxins from the cells. It also regenerates cellular activity, and decreases muscle spasms and soreness. Relax yourself under the soothing heat while detoxifying your entire body.

Electric Energy

Represented by the E-Power, a technology that is designed to provide Negative Potential Energy (Anion Effect) through High Frequency Energy (Resonance). The E-Power can help to reduce inflammation, freckles, beautify your skin and etc. By using the E-Power for just a short period of time, you will observe immediate results.

Testimonials:

Judy Wright & David Beriault

"The SOQI Bed has been one of the best purchases I have ever made! It is just like having your own private spa. Wonderful music drifting into our ears, soothing warmth healing our bodies, and the gentle massage of the Chi all rolled into one experience. We especially appreciate how easy it is to get in and out of the bed, and all the controls are right there at the touch of one keypad. The machine is wonderful and the benefits are great."

Karen Bailey

"I've been delighted with the results I've personally experienced from the SOQI Bed. As a practitioner, I feel the SOQI Bed brings me the opportunity to offer my clients a total health experience that fits in wonderfully with my existing practice of NLP/Hypnotherapy and aromatherapy. My clients have experienced great relief from depression, stress, insomnia and muscle aches and pains. Overall, the SOQI Bed offers my clients and me a wonderful opportunity to improve quality of life, health and vigor."
