

CLEANING SERVICES

See what's right for me

www.elite-edge.au

INTRODUCTION

We understand that every home, business, and client is different, and so are your cleaning needs.

Our services are always tailored to the size of your property, how the space is used, and what matters most to you. The inclusions outlined in this guide are provided as a general reference only. Your final scope is confirmed during your quote or site assessment so we can make sure the service aligns with your priorities.

Most of our regular cleaning services are charged by the hour. This allows flexibility, as the scope can vary depending on your budget, the condition of the space, and the time allocated. We will always talk you through a realistic guideline of what can be achieved within the quoted time for your property.

For Deep Cleans, Bond Cleans, and Ready for Sale Cleans, we provide a fixed price based on an assessment of the property. This gives you certainty around cost and ensures sufficient time is allocated to achieve the required standard.

This guide is structured around standard cleaning zones, along with a range of optional add-on services. You can select the areas most important to you, and we can help shape the service around those priorities.

If you would prefer a more detailed or customised quote, we are always happy to arrange a site visit or discuss your needs in more detail. Our goal is to make the process simple, transparent, and tailored to you.

If anything changes during a clean that may affect timing or scope, we will let you know as soon as possible and discuss the best way forward.
